Below are short aliases to be called by mapper cexit command using Mushclient in room Chamber of Destiny at Astral Travels.

1. copy and paste below the whole chunk as aliases to your Mushclient.
2. go to the room called Chamber of Destiny in Astral Travels
3. if you already have a great mapper cexit here in this room, then stop.
4. if you don't, then mapper delete cexits.
5. type in mapper cexit enterviri
-- hopefully mapper cexit command worked. if so, go back to the Chamber of Destiny.
6. type in mapper ceixt entersilv -- pause til mapper acknowledges.
7. go back to Chamber of Destiny and type mapper cexit enterindi   -- then pause a moment
8. go back to Chamber of Destiny and type mapper cexit enterceru   -- then pause a moment
9. go back to Chamber of Destiny and type mapper cexit enteraliz   -- then pause a moment

You should be good.
